

Robotic products designed for human environments have to **follow the norms** and **meet the expectations** of these environments.

These were autonomous robots working in hospitals. My findings point to (1) **one high-level conclusion** 🙌...

These were autonomous robots working in hospitals. My findings point to (1) **one high-level conclusion** 📌...

Robotic products designed for human environments have to **follow the norms** and **meet the expectations** of these environments.

Research Mission: Building human-centered principles and methods to **design** effective interactions between people and robotic technologies and to successfully **integrate** these technologies into the human environment.

... (2) 📌 a **research mission**,
and (3) three parallel
research threads 📌.
